“Even the simplest communication can unexpectedly become complex!”  
- Ingrid Bens, author “Advanced Facilitation Strategies -

### Overview and Process

‘Simply Facilitating’ helps you: to prepare efficiently for meetings; feel in control; and maximise results while improving the trust, effectiveness and outcomes of your team.

With 1 day of exercises devoted to preparation and a second day of practice and feedback, ‘Simply Facilitating’ makes engaging, focused meetings a reality. The result is improved communication and productivity through meetings that are on time, on topic and focused.

Some of the issues covered include:

<b>Prepare</b>	Effective preparation of the objective, agenda and briefings, will make or break the meeting.
<b>Build Early Rapport</b>	F2F’s ‘SMARRT-start’ ensures openness, trust, context and purpose from the outset of the meeting.
<b>Encourage Participation</b>	Firmness and safety are key for effective audience involvement.
<b>Vary Delivery</b>	Varying your tone and style will help to broaden the discussion, or focus the meeting on specific actions, as required.
<b>Manage It Live</b>	And finally the fun stuff! Being equipped to keep the focus; manage the time; encourage quieter participants; and manage the stronger ones.

“A practical training course that gave me new skills I can use immediately, both in 1-on-1 & group meetings. The skills learnt will enable me to create the right environment to reach the desired end result.

Knowing I’m fully prepared in advance of the meeting gives me enormous confidence that my future sessions will be enjoyable and more importantly, results driven.”
